

(E) The vessel's operations are consistent with applicable state and Federal law, including those governing disposal of fish waste at sea.

(b) *Routine management measures.* In addition to the catch restrictions in this section, other catch restrictions that are likely to be adjusted on an annual or more frequent basis may be imposed and announced by a single notification in the FEDERAL REGISTER if they first have been designated as "routine" according to the applicable procedures in the PCGFMP. The following catch restrictions are designated as routine for the reasons given in paragraph (b)(1)(ii) of this section:

(1) *Commercial-limited entry and open access fisheries—*

(i) *Species and gear.* (A) Widow rockfish—all gear—trip landing and frequency limits.

(B) *Sebastes* complex—all gear—trip landing and frequency limits.

(C) Yellowtail rockfish—all gear—trip landing and frequency limits.

(D) Pacific ocean perch—all gear—trip landing and frequency limits.

(E) Sablefish—all gear—trip landing, frequency, and size limits.

(F) Dover sole—all gear—trip landing and frequency limits.

(G) Thornyheads (shortspine thornyheads or longspine thornyheads, separately or combined)—all gear—trip landing and frequency limits.

(H) Bocaccio—all gear—trip landing and frequency limits.

(I) Pacific whiting—all gear—trip landing and frequency limits.

(J) Lingcod—all gear—trip landing and frequency limits; size limits.

(K) Canary rockfish—all gear—trip landing and frequency limits.

(L) All groundfish, separately or in any combination—any legal open access gear (including non-groundfish trawl gear used to harvest pink shrimp, spot or ridgeback prawns, California halibut or sea cucumbers in accordance with the regulations in this subpart)—trip landing and frequency limits. (Size limits designated routine in this section continue to apply.)

(ii) *Reasons for "routine" management measures.* All routine management measures on commercial fisheries are intended to keep landings within the

harvest levels announced by NMFS. In addition, the following reasons apply:

(A) Trip landing and frequency limits—to extend the fishing season; to minimize disruption of traditional fishing and marketing patterns; to reduce discards; to discourage target fishing while allowing small incidental catches to be landed; to allow small fisheries to operate outside the normal season; and, for the open access fishery only, to maintain landings at the historical proportions during the 1984–88 window period.

(B) Size limits—to protect juvenile fish; to extend the fishing season.

(2) *Recreational—(i) Species and gear.* (A) Lingcod—all gear—bag and size limits.

(B) Rockfish—all gear—bag limits.

(ii) *Reasons for "routine" management measures.* All routine management measures on recreational fisheries are intended to keep landings within the harvest levels announced by NMFS. In addition, the following reasons apply:

(A) Bag limits—to spread the available catch over a large number of anglers; to avoid waste; for consistency with state regulations.

(B) Size limits—to protect juvenile fish; to enhance the quality of the recreational fishing experience; for consistency with state regulations.

(c) *Prohibited species.* Groundfish species or species groups under the PCGFMP for which quotas have been achieved and the fishery closed are prohibited species. In addition, the following are prohibited species:

(1) Any species of salmonid.

(2) Pacific halibut.

(3) Dungeness crab caught seaward of Washington or Oregon.

§ 660.324 Pacific Coast treaty Indian fisheries.

(a) Pacific Coast treaty Indian tribes have treaty rights to harvest groundfish in their usual and accustomed fishing areas in U.S. waters.

(b) For the purposes of this part, Pacific Coast treaty Indian tribes means the Hoh, Makah, and Quileute Indian Tribes and the Quinault Indian Nation.

(c) The Pacific Coast treaty Indian tribes' usual and accustomed fishing areas within the fishery management area (FMA) are set out below in paragraphs (c)(1) through (c)(4) of this section. Boundaries of a tribe's fishing area may be revised as ordered by a Federal court.

(1) *Makah*—That portion of the FMA north of 48°02'15" N. lat. (Norwegian Memorial) and east of 125°44'00" W. long.

(2) *Quileute*—That portion of the FMA between 48°07'36" N. lat. (Sand Point) and 47°31'42" N. lat. (Queets River) and east of 125°44'00" W. long.

(3) *Hoh*—That portion of the FMA between 47°54'18" N. lat. (Quillayute River) and 47°21'00" N. lat. (Quinault River) and east of 125°44'00" W. long.

(4) *Quinault*—That portion of the FMA between 47°40'06" N. lat. (Destruction Island) and 46°53'18" N. lat. (Point Chehalis) and east of 125°44'00" W. long.

(d) *Procedures*. The rights referred to in paragraph (a) of this section will be implemented by the Secretary, after consideration of the tribal request, the recommendation of the Council, and the comments of the public. The rights will be implemented either through an allocation of fish that will be managed by the tribes, or through regulations in this section that will apply specifically to the tribal fisheries. An allocation or a regulation specific to the tribes shall be initiated by a written request from a Pacific Coast treaty Indian tribe to the Regional Director, prior to the first of the Council's two annual groundfish meetings. The Secretary generally will announce the annual tribal allocation at the same time as the annual specifications. The Secretary recognizes the sovereign status and co-manager role of Indian tribes over shared Federal and tribal fishery resources. Accordingly, the Secretary will develop tribal allocations and regulations under this paragraph in consultation with the affected tribe(s) and, insofar as possible, with tribal consensus.

(e) *Identification*. A valid treaty Indian identification card issued pursuant to 25 CFR part 249, subpart A, is *prima facie* evidence that the holder is a member of the Pacific Coast treaty Indian tribe named on the card.

(f) A limited entry permit under subpart C is not required for participation in a tribal fishery described in paragraph (d) of this section.

(g) Fishing under this section by a member of a Pacific Coast treaty Indian tribe within their usual and accustomed fishing area is not subject to the provisions of other sections of this part.

(h) Any member of a Pacific Coast treaty Indian tribe must comply with this section, and with any applicable tribal law and regulation, when participating in a tribal groundfish fishery described in paragraph (d) of this section.

(i) Fishing by a member of a Pacific Coast treaty Indian tribe outside the applicable Indian tribe's usual and accustomed fishing area, or for a species of groundfish not covered by an allocation or regulation under this section, is subject to the regulations in the other sections of this part.

(j) *Black rockfish*. Harvest guidelines for commercial harvests of black rockfish by members of the Pacific Coast Indian tribes using hook and line gear will be established annually for the areas between the U.S.-Canadian border and Cape Alava (48°09'30" N. lat.) and between Destruction Island (47°40'00" N. lat.) and Leadbetter Point (46°38'10" N. lat.), in accordance with the procedures for implementing annual specifications. Pacific Coast treaty Indians fishing for black rockfish in these areas under these harvest guidelines are subject to the provisions in this section, and not to the restrictions in other sections of this part.

(k) *Groundfish without a tribal allocation*. Makah tribal members may use midwater trawl gear to take and retain groundfish for which there is no tribal allocation and will be subject to the trip landing and frequency and size limits applicable to the limited entry fishery.

§ 660.331 Limited entry and open access fisheries—general.

All commercial fishing for groundfish must be conducted in accordance with the regulations governing limited entry and open access fisheries, except such fishing by treaty Indian tribes as may be separately provided for.
